

PSA Testing – Sat 13th April -Billingshurst

The PSA test is used to help detect prostate cancer. In its early stages, prostate cancer generally produces no symptoms, so it is important to diagnose the disease before symptoms arise and while it is still potentially curable.

All men over 40 are able to book an appointment online to visit one the PSA testing sessions, as long as they have made an informed choice based on the benefits, limitations and risks of having the test.

If this is the first time you are considering a PSA Test please read the information @ pcaso.org/psa-testing/ so that you can make an informed choice before booking a PSA test at the event.

The Billingshurst Centre, Roman Way, RH14 9QW
